

The Marconi Street Pals

Environmental renovation and restoration actions implemented for historical centres and urban areas .

Civic monitoring

The project aims to foster citizenship, raise awareness and interest about the old town, it was carried out through teamwork and analysis.

Contextual information

The purpose of this project is to monitor European funds for the refurbishment of the historic center of Campobasso. Our "road map" is based on the analysis of upgrading actions that have been taken to improve the attractiveness of the main city of Molise.

Value for the community

The old town represents the roots of our culture and the rediscovery of this amazing part can generate further pride towards our old traditions and forgotten craftsmanship. A city can't live without a throbbing heart and the purpose of the project is to restore its vitality starting from its heart.
