

Our Assoc path

The choice of this project was born from the curiosity that it transmitted to us and that we would like to convey to all of you. Our intent is to make the city of Mileto known from a religious-cultural point of view.

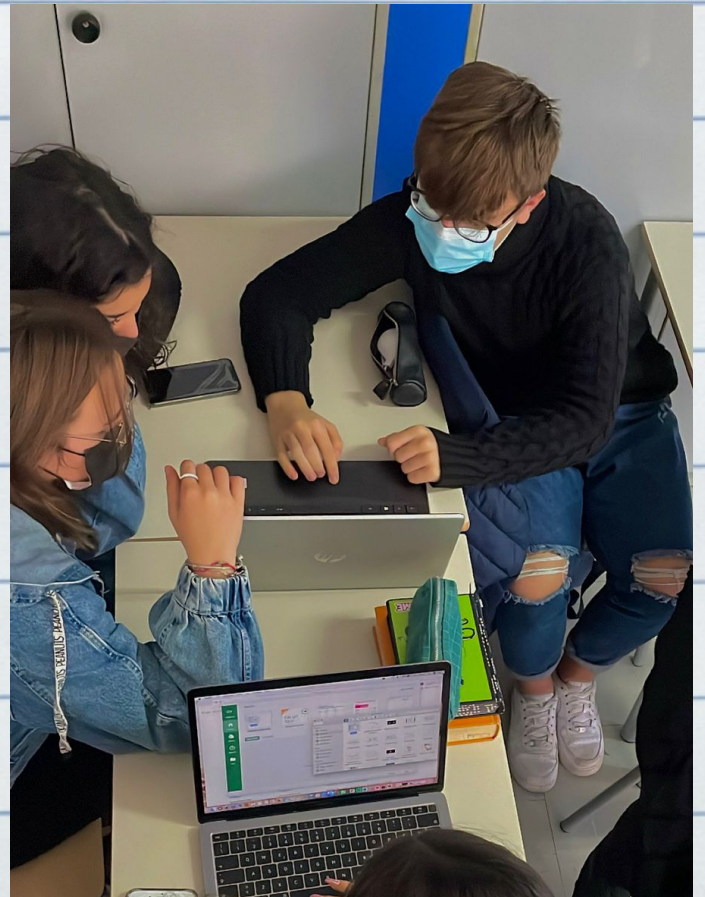

*Why Angels in Disguise?
"Angels In Disguise", a famous English saying that, in our opinion, recalls not only religion, but also the personality of us teenagers, as good as angels, but who often commit mistakes.*

Logo Design

The logo represents an apparently normal boy, who shows his true nature by revealing his face covered by a mask. It is an angel, while he spreads his wings, in all the purity of him.

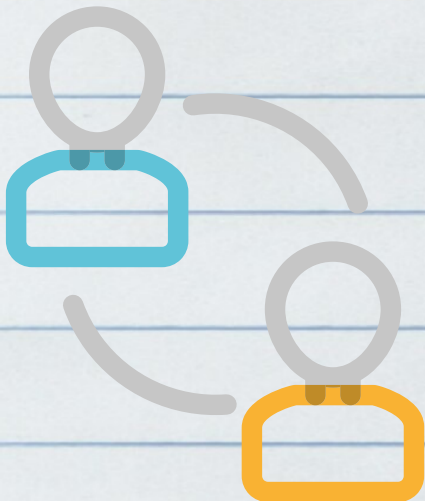

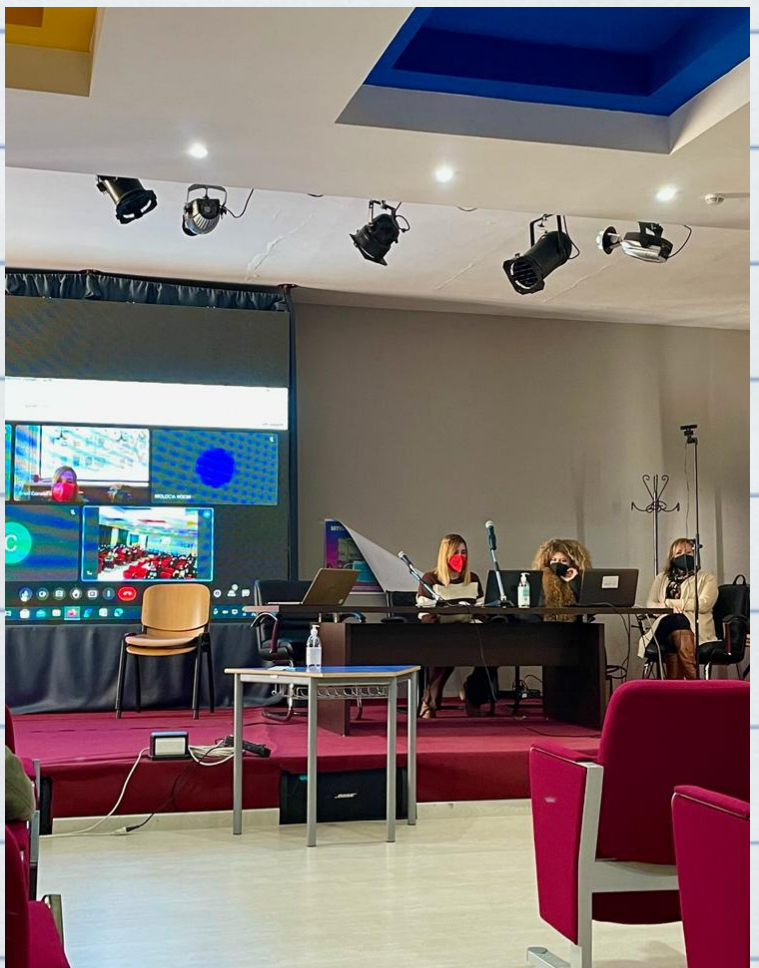

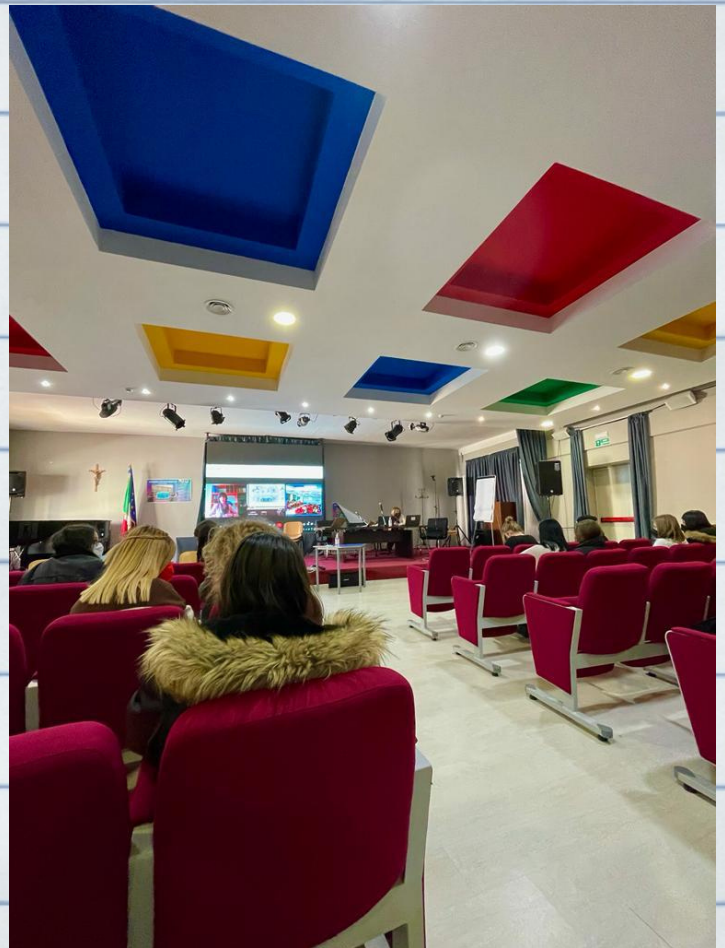

Journalists for a day

The photos we show you are some of the moments in which we felt really immersed in this project. Listening to the story of how the foundation was born and the story of Mamma Naturza's life moved us and made us understand many values.
