## Additional research

- Surveys or questionnaires and interviews
- Focus groups
- Institutional websites (Municipality Province of Mileto).

## Brief description of your civic monitoring research

- |                     |                    |           |
|---------------------|--------------------|-----------|
| -Knowledge          | -Cultural heritage | -Analysis |
| -Artistic patrimony | -Citizenship       |           |

The project's aim is to monitor the Sanctuary of Mileto, religious tourist center. The main goal is to make the city of Mileto known beyond the borders of the province, enhancing its artistic-cultural heritage and strengthening the relationship of citizenship with the territory. We will present the data we found on the Opencoession's website and explain by a detailed analysis the payments already made and the ones that have to be done.

## Communication format and involvement strategy
