

SHORT DESCRIPTION OF OUR CIVIC MONITORING RESEARCH

The project we have chosen will deal with the monitoring of environmental depollution in the municipality of Cirò, more precisely the depollution of water

Keywords: project, monitoring, depollution, Cirò, water

CONTEXT DATA

From the site <https://opencoesione.gov.it/> we found that the payments made are 83% with the total funding of €1,167,146.09 and public cost of €1,400,000.00. The actuator is the Calabria Region and the beneficiaries are the Calabria Region and the Municipality of Cirò. The start date is 28/12/2007 and the end date is 16/06/2009

PROJECT AND THEME CHOSEN ON OPENCOESIONE

The name of the project is "environmental depollution of the municipal area of Cirò" and the theme is treatment of potable water. We chose this project because water is a very valuable resource but we often neglect it without understanding its true value

EXPERTS ON THE SUBJECT

Municipality of Cirò

OBJECTIVE

The objective of our civic monitoring is to have accessible and clean water for everyone
