

<p>Brief description of your civic monitoring research</p> <p>We're digitally researching this retraining with the aim of carrying Modena's legacy and boosting tourism using the Ministry of Cultural Heritage foundings.</p>	<p>Contextual information:</p> <p>The project in question, which has as its goal the renewal of the former Este hospital, is part of the 2014-2020 programming cycle, and its cost amounts to €17.000.000, fully financed by the Fund for Development and Cohesion (FSC). The latest data trace back to August 31, 2022, when 83% of the project had been completed, and €14,119,301.95 euros had been invested into it. The project has continued on a steady course, and 2020 was when most of the funding happened, around 5.000.000 euros</p>	<p>Chosen project and theme</p> <p>Name Renewal of the Former Ospedale Estense and of the structural complex of Palazzo dei Musei</p> <p>The theme Culture and tourism</p> <p>Brief description The Former Ospedale Estense is currently being renewed in order to become a cultural centre and venue of educational and cultural activities</p>	<p>Experts on the theme</p> <ul style="list-style-type: none"> - Project manager Micaela Goldoni - Technical director Paolo Muratori - Data management and research assistant Elisabetta Olivastri 	<p>Communication format and involvement strategy</p> <p>The format used for our research is a descriptive and non-structured text, understandable to everyone, even those who are not familiar. The data we have used is mostly administrative data, but in some circumstances we have reported statistical data. To involve the local community in our work we will post all of our research developments on our social media page (on twitter @4Dsupremacy) and on the website of the project itself. Moreover to increase the popularity of the research we will post it on the Monithon website.</p>
<p>Additional research: choose 3 additional research methods</p> <p>1) Historical research: The inventions are carried out respecting the historical and architectural values of the 18° century complex, originally called Albergo dei Poveri, which occupies an entire block of Modena's historic center.</p> <p>2) Media archives: It is planned to move museum works from where they are currently placed. Portions used for exhibition activities, the library and offices of cultural association are planned to be redeveloped</p> <p>3) Some services will move to Newton Avenue 150, due to the renewal process inside the former Estense hospital. The move will affect clinical psychology, child and adolescent neuro-psychiatric eating disorder and addiction services.</p>	<p>Value for the community: how will your research have an impact on your territory? Which effects and further developments could your research trigger? Which categories of people could it interest?</p> <p>Our research will positively influence the community and its members. It will mainly concern those citizens interested in the employment of public funds and the politicians part of the national finance and economy department. It could help the former understand how the state employs its public purse in the tourism industry and therefore include them in the application of their own money. Alongside it could provide significant information to the ministry regarding the future planning of public investments based on the actual feedback of ongoing work. It also represents a meaningful instrument to signal the possible conclusion or dropout of the project in order to discourage similar failures.</p>
