Brief description of the research	Data of contest: that datas have you found about your theme of research? (see the slides and find datas and informations of contest)	Project and theme chosen on OpenCoesione	Experts in our territory to involve in the project	Format of communication and strategy of involvement (what
(summarise the research in 280 characters and choose 5 key words to describe it) Our research focusses on the savings given by increasing the efficiency of the hospital electrical system. We have decided to monitor this project for its relevance in various areas of civil and economic society by focussing on energy sources and uses. - Productive recovery - Respect for the environment -Sustainable development - Renovation of plants - Renewable sources	CUP: J66G18000070006 ENERGY EFFICIENCY WORK OF LENTINI'S HOSPITAL https://www.siracusa2000.com/index.php/2021/07/14/lentinifinanziato-dalla-regione-il-progetto-per-lefficientamentoenergetico-dellospedale/ https://qds.it/lentini-5milioni-euro-ospedale-perefficientamento-energetico/ https://qds.it/ospedale-lentini-anatomia-patologica/ https://www.webmarte.tv/lentini-ospedale-appalto-perlefficientamento-energetico-della-struttura/ https://www.insanitas.it/asp-di-siracusa-in-arrivo-oltre-16-milioni-di-euro-per-progetti-di-riqualificazione-energetica/ https://www.siracusa2000.com/index.php/2021/07/14/lentinifinanziato-dalla-regione-il-progetto-per-lefficientamentoenergetico-dellospedale/	(name, brief description, theme) **NextEnergy** Our team has chosen NextEnergy as its name, because it is linked to the goal of our monitoring. The first part that makes up our name is 'next', because we represent the future generation and want to push our limits.	Doc.Francesco Caudullo CDE University of Catania Doc. Antonino Micale Doc. Vincenzo Cannavò Doc. Salvatore Madonia	format will you choose to comunicate your strategies and to involve the local community) We're going to use social media such as: Instagram Twitter Facebook Youtube Institute's blog

Other researches: choose 3 methods of research (see slides "choose a technique of research)	**Value for the community:** in which way your research could have an impact on your territory? What effects could the research have? What categories could be interested by it?
Web pages, websites, and databases. Documents of organisations. Official documents.	We have decided to consider this project because at this time of our lives, we are increasingly wondering how to direct our research to find alternative energy sources, and therefore to have cleaner energy in large quantities. To be active citizens, we have decided to focus our research on the savings given by the increase in the efficiency of the hospital electrical system. Monitoring this project gives an idea of its importance in various areas of civil and economic society by focussing on the sources and uses of renewable energy.
