

# Road to the sea

## Brief description

Chosen project: **The extension of the Campomarino seafront** - CUP: E76E19000180006.

Although the start of the work was scheduled for 03/31/2020, to date the project has not yet begun.

With our intervention we intend to answer the following **questions**:

- Why haven't the works started? What obstacles?
- What could be the environmental and/or landscape impact?
- What does the local community think?
- Are they aware of the initiative?

## Keywords

Civic monitoring  
Transparency  
Community involvement  
Environmental sustainability  
Participatory information

## Contextual data

**Total Funding:** €615,626.00

- EU Funds: €307,813
- Revolving Funds: €215,469
- Regional Funds: €92,344

### Entities involved:

- Project Developer: Municipality of Termoli
- Beneficiary Municipality: Campomarino

**Project Start:** Not initiated

**Funding through the European Regional Development Fund (FESR)**

**Programming Period:** 2014-2020

**Program:** POR ESF FERS MOLISE

**Axis 5:** Environment, culture, and tourism.

### Specific Objective:

Pursue the improvement of conditions and standards for the offer and use of heritage in natural attraction areas (RA 6.6 AdP).

## Value for the community

We think our **civic monitoring** can bring significant value to the Campomarino community. First, it brings **transparency** to the process of using European funds, actively **involving the community** in decisions that will affect their environment. It also helps raise community awareness of project details, expected benefits, and **impacts**, both positive and negative, fostering a greater understanding of the **economic, environmental**, and landscape dynamics associated with the initiative.

## Communication format

## Involvement strategy

Public event, Community Meetings surveys and questionnaires, use of social media

## Additional research

interviews, websites (ISTAT, Opencohesion, Monithon, etc.)
