Additional research

Secondary data search

The Kanban System

Online research method

Value for community

Our research is addressed not only to our school community but to all provincial district and, in particular, to the new generations, who will have the task, in a not too distant future, to lead our province. The data will be delivered on social channels, a daily blog and a web radio.

Communication

Raise public awareness on a fundamental issue for the territory and its development. Transmission format: web radio and web TV, dedicated social channels.

Public events and webinars to show the site and the data collected during the project. Dissemination actions .
